## A spell that is divine!

Awesome beauty of Kailash Mansarovar

The long arduous trek to Kailash Mansarovar in Tibet through Kumaon along the bank of Kali Ganga was nothing short of heavenly experience. A detailed narration has to wait for another day. Suffice to say for the present that whatever goals and dreams one sets in mind can be actualized through creative visualization, enchanting prayers and Ze NLP meditation.

My miraculous visit to revered Kailash Mansarovar is a live example of the fact that power to succeed lies within us.

Mt. Kailash is a fabulous mountain with awesome beauty with four great faces.

It is the spiritual centre for four great religions: Hinduism, Tibet Buddhism, Jainism and animistic religion called Bönpo. The Tibetans call it "Precious Jewel of Snow".
